Matthew B. Hirsch, MD, is certified by the American Board of Otolaryngology and practices Otolaryngology and Facial Plastic Surgery at NYEEMS. He completed his Otolaryngology residency at the University of Louisville, followed by an accredited fellowship in Facial Plastic and Reconstructive Surgery at Lenox Hill Hospital and Manhattan Eye, Ear, and Throat Hospital, where he trained with world-renowned experts in cosmetic and reconstructive surgery of the face and surgery for tumors of the skull base.

Dr. Hirsch treats the full range of general ear, nose, and throat problems in adults and children. In addition, he is fully trained in both cosmetic and reconstructive surgery of the face. His clinical interests include reconstruction after skin cancer surgery, facial trauma, facial paralysis (“Bell’s Palsy”), deviated nasal septum, and nasal reconstruction.

Dr. Hirsch brings a warm, caring approach to treating all his patients and believes that meticulous attention to detail is the key to excellent outcomes.

Clinical Interests:

- Skin cancer and post-surgical reconstruction
- Facial nerve paralysis (“Bell’s Palsy”) diagnosis and treatment
- Facial, orbital, and jaw fractures and lacerations
- Rhinoplasty and nasal reconstruction
- Deviated nasal septum
- Chronic sinusitis
- Tumors of the sinuses, face, and skull base
- Cranioplasty (skull reconstruction)
- Eyelid surgery
- Facial birthmarks in children and adults
